## Objectives and activities of the promoter

*Please provide a short presentation of your organisation/group (usual activities, affiliations, etc) in relation to the field covered by the project.*

The “Asociación Cultural Somos Europa” was born with the task that the young people of our province (Granada) know more deeply what Europe is, its different cultures, languages, ways of understanding life, history.... We want to strengthen the European identity using intercultural knowledge as a tool. We also want our young people to be socially more participative, to be committed to be autonomous and involved with the social problems, we want them decide for themselves and become drivers of change. We would like to favour the acquisition of skills through non-formal education mainly (workshops, project development, cultural activities, volunteering ...).

We are a group of people, mostly young people who come from working with the Padul in Action Youth Association, University of Granada and the Padul Town Hall, we worked with these entities working with the Erasmus + program with more than satisfactory results. We decided to give One step further and expand our work to the rest of the province.

Our way of working is integrative and proactive, it is the young participants who carry out and implement our projects always with our coordination and supervision.

We have participated in the implementation of the Erasmus + program in our municipality through the development of 4 young exchanges

- Sharing quality of Life
- Move on, Europe is waiting for you
- Playing to Build Europe
- Plugged to the participation

We developed the first EVS project in our Town:

- Do we learn having a good time?

In the same way we have been partner in several Erasmus + projects in other parts of Europe:

- Hate Free Youth (Bulgaria)
- Tolerance is our goal (Lithuania)
- Building Bridges (Denmark)
- We need to activate (Poland)
- Family Portrait (Hungary)
- Me too (Slovenia) Training
- Inclusion Through Media and Sport (Ireland)
- Simulation of the European Parliament (Spain)
- We need (Poland)
- Fem Power (Birmingham)

# Erasmus+

- Critical Think (Poland)
- On the Spot (Hungary)
- Let's develop our local homelands (Italy)
- It depends on us (Lithuania)

We are partner in a KA2 project related with green jobs "GREAT" that is going to finish in September of 2019.

We participate in many of the cultural and sports initiatives that take place in our municipality as volunteer

In November 2018 we started a very ambitious project with which we intend to promote that our young people acquire leadership skills. The course has started in our Town (Padul) but our goal is to extend it to other municipalities in the province

We collaborate with the Youth Center of our municipality in the dissemination of the Erasmus + program among our young people.

We have developed several informative talks about the Erasmus + program with the young people of the IES la Laguna from Padul and IES Alonso Cano from Durcal.

## Skills of the staff

The people who coordinate the work of our association unite us with the objective of increasing the opportunities and competences of our young people. We come from rural areas where the educational and cultural opportunities are few. We want the young people of our province open their eyes to Europe, they learn from young people with different languages and cultures. We are convinced that non-formal education is the most effective vehicle for acquiring tools, knowledge, skills ... and therefore it guides our work. We are people participative and committed with our community. We handle perfectly in English and that we have participated in several European projects as we have indicated before. I'll detail our personal experience a little more:

**Vicente Gutierrez Ortega:** Student of the double degree of Law-Business Administration at the University of Granada. During the summer of 2016 he was EVS coordinator "Do We Learn Having a Good Time?" And leader in a youth exchange with teenagers in Dublin. He has complementary training in a wide range of fields; youth development, team management, management assistance and training of trainers. He works for the University of Granada informing young students about the possibilities and opportunities of the University, at the same time as awareness-raising activities to increase the participation of young people in the decision-making processes of their communities. He has participated in various international forums on democracy and good practices. He is a member of the CJE and the Embassy of Structured Dialogue; he collaborates with associations of the
